COMPREHENSIVE SAFETY CHECK

Your family's safety when driving will be your number one priority.

\$49.00

Don't take unavoidable risks this summer.

Visit our Ford factory trained technicians who will perform a comprehensive safety check and report on your vehicle before you hit the road for the family holiday.

- **Our Service Advisors will customise and prioritise your service, maintenance and repairs so you won't be hit with them all at once.**
- **If you would like to wait with us while your car is being inspected, why not have a cup of coffee or even take a brand new Ford for a test drive.**
